Data analyst with experience in econometrics and causal inference, interested in machine learning.

Professional Experience

Data Analyst *feb/2023 - apr/2024*
Laboratory of Studies and Research in Social Economics (LEPES)

- Data analysis with R and Python;
- ETL (Extract, Transform, Load) with R and Python;
- Web scraping with Python;
- SQL database manipulation (PostgreSQL);
- Econometric modeling for causal inference

Data Consultant *jun/2023 - oct/2023*
Freelancer

- Data collection, organization, and validation using R and Python;
- Processing and visualization of geospatial data;
- Consuming APIs for accurate collection and validation of latitude and longitude data;
- Presenting interim and final feedback, communicating insights and results.

Education

University of São Paulo (USP) *2022- 2024*
Master's in Applied Economics (FEA/RP)

Federal University of Rio de Janeiro (UFRJ) *2017 - 2022*
Bachelor's Degree in Economics (IE/UFRJ)

Academic Experience

Scientific Article: "Intergovernmental Transfers in Hard Times: Evidence from Brazilian local governments in the COVID-19 crisis." (*under R&R*)

- Data collection, processing, and analysis;
- Statistical modeling and econometric estimates

Research Fellow (CNPq) *jun-dec/2021*

- Data collection, processing, and analysis in R;
- Econometric modeling and calculation of demand elasticities.

Skills

Programming:	**Tools:**	**Languages:**
- R (advanced)	- Excel (intermediate)	- Portuguese (native)
- Python (intermediate)	- Power BI (basic)	- English (advanced)
- SQL (basic)	- Git (basic)	- Spanish (basic)
